

All-Americans

Quality of work: 3 pts, full points

Comments: amazingly documented code and well laid out.

Project Progress: 3pts full points

Comments: Amazing progress. Tons of code to show, and in the video (and printed results) the results are shown of what is there. Im interested to see what the outcomes of the project are.

Video: 3pts

Comments: Great video demonstrating the graphs of the code

Extra comments:

I see that you have pretty much written entire papers with information about your project. Im not sure if you know, but you only need to do a code project **OR** a paper. If that is part of your process, great job! Very thorough and don't let it stop you.
